CAREER OBJECTIVE :

Accomplished Front-end Developer with a solid foundation in HTML, CSS, and React.js, aiming to evolve into a Full Stack Developer role. Keen to integrate my front-end expertise with back-end technologies like Node.js and Express.js, contributing to end-to-end development solutions. Seeking an environment that fosters growth and innovation in both front and back-end development.

SKILLS :

Expertise : HTML5 | CSS3 | Tailwind CSS | Bootstrap | JavaScript | React.Js | Material UI | Firebase

Comfortable : Rest APIs | ES6

Familiar : Redux | Next.js | Node.js | Express.js | MongoDB | JWT | Stripe

Tools : Vs Code | Git and Github | Netlify | Vercel | Figma | Photoshop | Canva

EXPERIENCE :

Werro Digital - Frontend Web Developer

- Aug 2023 - Nov 2023 | Dhaka, Bangladesh

PROJECTS :

Freedom Yoga - JavaScript, React.js, Node Js, Express.js, MongoDB | [Live Link](#)

- Engineered a secure entry point with Firebase Authentication for users on the Freedom Yoga platform. Simplified the user journey by enabling easy navigation to book classes offered by specific instructors.
- Integrated Stripe for seamless and secure payment transactions for selected classes. Provided users with a user-friendly dashboard for centralized class and payment management.
- Developed an admin dashboard for the swift removal of selected classes and user management. Implemented admin privilege control for efficient governance.

Image Gallery - JavaScript, React.js, Tailwind CSS | [Live Link](#)

- Developed a React.js-powered image gallery with seamless uploads and additions for a dynamic visual experience.
- Implemented user-friendly controls for selecting and deleting specific or multiple images, enhancing user control.
- Optimized gallery performance by saving uploaded images in local storage, ensuring responsiveness and efficiency.

EDUCATION :

Diploma In Engineering - Graphic Design Technology

- Aug 2019 - Present | Dhaka, Bangladesh

PROFESSIONAL COURSE :

- **Programming Hero - Complete Web Development Course**
